Thomas Stein

Junior Frontend Developer | React | Next.js | TypeScript | Tailwind CSS
thomas7stein12@gmail.com | (423) 707-5268 | Elizabethton, TN | LinkedIn | GitHub | Portfolio

Summary

Junior Frontend Developer specializing in React, Next.js, TypeScript, and Tailwind CSS. Completed a frontend internship at Skinstric AI and runs an ongoing freelance practice building and maintaining websites for three clients: a local business, a church, and a nonprofit. Trained through Frontend Simplified, with working knowledge of Node.js, PostgreSQL, and Supabase. A healthcare and client-facing background adds reliability, clear communication, and a user-focused approach to every build.

Technical Skills

Languages & Web: JavaScript (ES6+), TypeScript, HTML5 (semantic HTML), CSS3, SQL
Frameworks & Libraries: React, Next.js, Tailwind CSS, Node.js, Express.js
Frontend Specialisms: Responsive and mobile-first design, REST API integration, accessibility fundamentals, debugging
Databases & Backend: PostgreSQL, Supabase, Firebase
Tools & Platforms: Git, GitHub, Vercel, Vite, npm, Visual Studio Code, Postman

Experience

Skinstric AI (Remote) Sep 2026
AI Web Developer (Internship)

- Built and deployed a responsive AI skincare analysis application using React, Next.js, TypeScript, and Tailwind CSS.
- Implemented camera access, image uploads, REST API requests, and loading states for the AI-driven analysis flow.
- Debugged frontend and API issues and refined the user experience across desktop and mobile screen sizes.

Freelance Web Developer Jun 2025 - Present
Clients: Elizabethton Seventh-day Adventist Church, Quality Floors, Faith Fitness

- Rebuilt and modernized the Elizabethton Seventh-day Adventist Church website with Next.js, React, and Tailwind CSS, integrating Supabase to manage events and site content.
- Designed and deployed responsive websites for Quality Floors, a local flooring business, and Faith Fitness, a nonprofit, with a focus on clear navigation, accessibility, and contact.
- Provide ongoing maintenance across all three client sites, managing deployments and source control through Vercel and GitHub and handling change requests directly with clients.

Consolidated Medical Staffing (Chattanooga, TN) Nov 2025 - Present
Patient Care Technician

- Deliver direct patient care in a fast-paced healthcare setting, building reliability, communication, and attention to detail.

Projects

Personal Portfolio with AI Assistant | Live Demo

- Next.js, React, TypeScript, and Tailwind CSS: responsive portfolio featuring an AI-powered assistant built with the Groq API that answers questions about my work.

Streaming Platform Clone | GitHub

- TypeScript streaming interface clone: responsive media browsing UI with dynamic content rows and a hero banner.

Education

Frontend Simplified Nov 2025 - Present
Full-Stack Web Development Training (Certificate)

University of Tennessee at Chattanooga Aug 2022 - May 2027 (Expected)
Bachelor's Degree (In Progress)
